GO!

In order to race in the Cartown Grand Prix, Putt-Putt and Pep need to bring four items to Redline Rick: **extra hi-powered/hi-octane petrol, super-speedy radial racing tyres, a safety helmet and a triangular flag.** Your job is to help Putt-Putt and Pep find and collect these items. Some items may be easy to find; others can be found only after you discover various clues, overcome obstacles or help a character solve a problem. If you explore, investigate and pay close attention to what you see and hear, you'll be off to the races in no time!

To guide Putt-Putt through Cartown, lead the way with your cursor. When your cursor is on an object that can be manipulated, the hollow arrow becomes solid. Click on the object to make it move, to pick it up or to learn more about it.

To move from place to place, click the mouse when your cursor becomes a large, solid arrow.

To move quickly through a scene without listening to all dialogue or watching all action, press the **Escape** (Esc) key. Use this sparingly, though; you won't want to miss any important information!

THE CARTOWN GRAND PRIX

Once you have found all four objects on Redline Rick's racing roster, you and Putt-Putt will race in the Cartown Grand Prix! Putt-Putt always drives as fast as he can but he brakes for oil puddles and for yellow ducks. Try to avoid these obstacles!

Each race is five laps long. You can watch the progress of your race on the map at the bottom of your screen (Putt-Putt is circled). The chart on the left shows who is currently in first, second and third place. To pause the race, press the **spacebar.** Press the spacebar again to resume racing.

Once you have earned the opportunity to race, you may race as many times as you like.
